Anthrax, the treatment of, 208, 312
Anthropoglossos, the, 109
Antipodal polemics, 495
Antrum, cyst in the, 153
Aorta, laceration of the, from an injury to the chest, with fracture of the sternum and ribs, instant death in a case of, 742
Apjohn, Dr. J., Manual of the Metalloids (review), 693
Apoplexy, death from, supposed from drunkenness, 591
Apothecaries and Coroners' Courts, 225
Apothecaries' Hall, pass-lists of, 28, 54, 80, 108, 136, 169, 196, 225, 253, 282, 309, 349, 394, 450, 478, 507, 535, 561, 590, 621, 647, 675, 704, 734, 753; regulations of, 325; of Ireland, regulations of, 346
Arachnoid, cyst in the cavity of the, 635
Arbroath Infirmary, 675
Army, analysis of candidates for medical commissions in the, 16; the case of the medical officers of the, 17, 106; medical department of the, 52, 54, 188, 215, 225, 252, 278, 320; medical service, competitive examinations in the, 100; pass-list of the medical department of the, 224; Medical School, questions at the examination at the, 227; regulations of the, 327; health of the, 389; position of the surgeons in the, 392; status of medical officers of the, 651; and navy, honorary distinctions to the medical officers of the, 702
Arnica, tincture of, a case of poisoning by, 571
Arnott, Dr. J., on the local application of heat and cold in spinal affections, 311
Arsenic, in ornamentation and in surgery, 124; internal use of, in a case of diabetes mellitus, 430
Ashburner, Mr. J., chlorodyne, 291
Association of Medical Officers of Asylums and Hospitals for the Insane, 36, 191
Associations, two: a contrast, 612
Asthma, on the value of chloroform in the treatment of, 515; uterine, on, 711
Astragalus, excision of the, for complete dislocation forwards and outwards, 660
Ataxie locomotrice, 707
Athletes, medical, 531
Atlas and axis, caries of, 290
Atmospheric pressure in the vaginal examination, on, 558
Auditory meatus, external, sebaceous tumours in the, 10
Australian medical news, 118
Aveling, Dr. J. H., on immediate transfusion, 121
Axillary gland, scirrhous, removal of a, from a woman on whom an operation for malignant disease of the breast had been performed more than six years ago, 120

B

Bacon, Dr. C. M., syphilis and prostitution in Austria, 133
Baines, M. A., on Excessive Infant Mortality (review), 467
Banks, D. A. J. H., paralysis of the right hand and forearm of some months' duration, arising from excessive smoking; successful treatment, 260
Bantingism, 387
Barker, Mr. E., a case of progressive atrophy of the tongue and muscles of speech; subsequent loss of power; great general atrophy; post-mortem appearances, 10
Barwell, Mr. R., Guide to the Sick Room (review) 42
Basham, Dr. W. R., introductory lecture at Westminster Hospital, 412; the Significance of Dropsy as a Symptom in Renal, Cardiac, and Pulmonary Diseases (review), 535
Bath County Court: Parker v. Fisher, 424
Baths at Harrow, 754
Beard, Dr. C. J., the vacant coronership of Sussex, 610
Beau's (M.) theory on the sounds of the heart, 171
Belcher, Mr. P., purpura hæmorrhagica, 104
Belfast, the riots in, 241
Benevolent Societies, medical, 477
Bennett, Dr. J. H., on clinical instruction, 511
Bequests, 54, 179, 254, 450, 467, 535, 591, 648, 704, 732
Bermuda, the campaign of death in, 278; yellow fever at, 421; the epidemic at, 670
Bertin, Mr. H., a case of poisoning by tincture of arnica, 571
Bethlehem Hospital, 479, 723; the reform of, 702
Bingley, Dr. C. W., the case of poisoning by arsenic at Crowle, 52
Biological science, 734
Bird, Dr. J., obituary of, 109
Birmingham musical festival, the late, 456
Birth extraordinary, 535
Births, the distribution of, 531
Bishops Waltham, a new infirmary at, 197
Bladder, a pickled chalot in the, 286; tapping of, per rectum, in a case of hydatid cyst between rectum and bladder, simulating distension of the latter viscus, 351
Blood-crystals, series of, 465
Bolton, Dr. J. A., druggists' presumption, 480
Bombay, coroner for, 479; sanitary condition of the army of, 641
Bond, Mr. J., surgical mechanism in Liverpool, 707
Bone, Dr. G. F., report of a case of aneurism of the abdominal aorta and of the left femoral artery, 207
Boys' dress, 537
Bradford Medico-Chirurgical Society, 479
Brain, Delineations of the, in relation to Voluntary Motion (review), 13; tumour of the right side of the, of a malignant nature, with hemiplegia of the left side, 464; tuberculous masses in each hemisphere of the, fatal case of, 741
Breathing-places of the metropolis, the, 48
Bree, Dr. C. R., the British Medical Association and its weekly print, 251, 363, 445; erythema gangrænosum, 650; the Peat fund, 671
Brett, Dr. A. T., report of cases of ovariotomy, 630
Bridgwater liberality, 723
Brighton, the drainage of, 186
Bright's disease, on cases of, 661
Brinton, Dr. W., Lectures on Diseases of the Stomach, with an Introduction on its Anatomy and Physiology (review), 635
British and French armies, health of the, 394
——— Association for the Advancement of Science, 124; meeting at Bath, 360
——— Caffraria, the native hospital at, 582
——— Journal of Ophthalmology, the, 477
——— Medical Association, 165, 328, 650; Dr. Humphry's address in surgery, 141; meeting of

the, at Cambridge, 190; and its *Journal*, 194, 220, 251, 269, 277, 363, 444, 588; the Provident Fund of the, 220
—— *Medical Journal* and special hospitals, 498
—— medical suggestion, a, 583
Brodhurst, Mr. B. E., Curvatures of the Spine (review), 718
Bromide of ammonium, the effervescing, 229
—— of potassium, 57, 110, 140
Brookhouse, Mr. J. O., case of medullary cancer of the foot terminating by spontaneous evulsion; subsequent rapid development of encephaloid of left lung, simulating empyema, 150
Brown, Mr. I. B., clinical lectures on some diseases of women remediable by operation: on uterine hæmorrhage, 5, 34; on retroversion, retroflexion, and anteversion of the uterus, 173; ovariotomy and the worth of its statistics, 251
Brown-Séquard, Notice sur les Travaux Originaux du (review), 719
Bruce, Dr. W., the incubation of scarlatina, 279
Buchan Medical Society, the, 197
Buckland, Mr. F., 753
Buée, Mr. W. U., the preservation of infusions, 539
Bull, Mr. E., the late, 196
Bullet, the travels of a, 221, 286
Burnett's solution of chloride of zinc, fatal case of poisoning by, 267
Burton, Capt. R. F., the Nile Basin (review), 719
Butterfield, Mr. W. H., the Compulsory Vaccination Act, 372
Byrne, Mr. T. E. D., the licence of counsel, 284

C

Cabs, conveyance of diseased persons in, 564
Cæcum and appendix vermiformis, perforation of the, 512
Cæsarean section, the, 465; seizure of the neck of the child by the uterus during the, 526, 558, 619, 646
Calcaneum and cuboid bones, excision of, for caries, with the result of a sound and useful foot, 91
Calcutta, disposal of the dead in, 26; medical aid to the sufferers from the cyclone at, 648
Calisthenics and Gymnastics (review), 637
Callender, Mr. G. W., introductory address at St. Bartholomew's Hospital, 404
Cambridge Lunatic Asylum, 424
——, medical education at, 305; medical examiners, 478; University of, 413; regulations of, 318; the medical session at, 474; natural sciences, 562; museum, 563; pass-lists of, 675, 732; natural sciences tripos, 752
Canadian remedies, 200
Cancer, epithelial, of the upper lip extirpated by plastic operation, no deformity resulting, 181; of the mediastinal glands extending to the left lung and pericardium, 239; in the male breast, 266
Cannift, Dr. W., resection of the ankle-joint, 236
Carbonic acid, its effects and uses, 552
Carcinomatous growth in the inferior vena cava through neighbouring extension, and producing obliteration, 379
Cardiff Infirmary, 676
Carotid artery, common, ligature of the, for bleeding from a punctured wound behind the ramus of the jaw, death resulting from supra-glottic œdema, 659
Carpenter's Principles of Human Physiology (review), 416
Carter, Dr. T. A., on the lymphatics of the liver, 397
——, Mr. R. B., the Provident Fund and the *Journal* of the British Medical Association, 308, 363, 589
Cartwright, Mr. S., introductory address at King's College, 404
Cassells, Dr. J. P., the sickness of pregnancy, 707
Castor-oil Plant, on an Alkaloid contained in the Seeds of the (review), 637
Casual poor of London, 126
Cataract, soft, on extraction of, by suction, 348
Cauliflower excrescence of the os uteri, removal of a, by the wire-rope écraseur; clinical remarks, 661
Cerebellum, the, in connexion with amputated legs, 13
Cerebral artery, obstruction of the middle, and softening of the brain, 549
Cerebrum, three cases of tumour of the right side of the, all proving fatal, 463
Certificates, medical, 562, 623, 650, 679, 707, 735, 754
Chambers, Dr. F., Margate as a health resort, 52
——, Dr. T. K., Lectures, chiefly Clinical (review), 96; recovery of, 423; retirement of, from the office of physician of St. Mary's Hospital, 590
——, Mr. T., hay-fever, 58
Chancre and syphilitic lichen attended with intense pruritus, 745
Chandler, Mr. T., muriated tincture of iron, 510, 622
Change of Climate, on (review), 240
Chaplin, Dr. T., the fevers of Jerusalem: some account of their nature, causes, and treatment, as observed in the years 1861, 1862, and 1863, 236, 263, 289; the average fall of rain in Jerusalem, 510
Chapman's (Dr.) remedy for sea-sickness, 651
Charcoal stoves in ships, 425
Charing-cross Hospital College of Medicine, 254
Charities, medical, 309
Charity at home, 129
Cheltenham College, the medical officers of the, 228
Chemistry, Elements of, Theoretical and Practical (review), 637; a Second Step in (review), 693
Child-bed, the diet of, 259
Chiropody, the dignity of, 443

MIRROR OF THE PRACTICE OF MEDICINE AND SURGERY IN THE HOSPITALS OF LONDON.

CHARING-CROSS HOSPITAL.—Lead-poisoning in early life; clinical remarks, 67—Complete dislocation of the astragalus forwards and outwards; excision of the bone, 660

FARRINGDON DISPENSARY.—Non-mercurial treatment of syphilis, 742

GREAT NORTHERN HOSPITAL.—Removal of a scirrhous axillary gland from a woman on whom an operation for malignant disease of the right breast had been performed more than six years ago, 120

GUY'S HOSPITAL.—Fibro-plastic tumour growing into the left nostril from the superior maxillary bone; excision and recovery, 153—Exfoliation of the inter-maxillary bones of an adult, ib.—Cyst in the antrum, ib.—Two cases of perforation of intestine in typhoid fever, 181—Two cases of exostosis from the greater tuberosity of the humerus; excision, 210—Cancer of the mediastinal glands, extending to the left lung and pericardium, 239—Carcinomatous growth in the inferior vena cava through neighbouring extension, and producing obliteration, 379—A case of diabetes mellitus, in which the internal use of arsenic proved beneficial after other means had failed, 436—Three cases of tumour of the right side of the cerebrum, all proving fatal; autopsy, 463—Cancerous constriction of the ascending colon; Amussat's operation; fatal result on the sixth day, 524—Strangulation of intestine by a diverticulum ilei (Meckel's diverticulum verum), the remains of the vitelline duct, in a girl of ten years, 547—Vitiligoidea plana, an affection of the skin, associated with ascites and disease of the liver, 571—Hemiplegia on the right side and loss of speech, with valvular disease of the heart, 605—Hemiplegia on the left side, with valvular disease; no defect of speech, ib.—Dysphagia; cicatrix in pharynx; anasarca of upper half of the body; pneumonia, 691—Laceration of the liver, with formation of an abscess between it and the diaphragm, perforating the latter, 716—Laceration of the spleen; death in a few hours from internal hæmorrhage, ib.—Laceration of the aorta, from an injury to the chest, with fracture of the sternum and ribs; instant death, 742

KING'S COLLEGE HOSPITAL.—A case of pleuritis, with effusion; paracentesis thoracis; bronchitis; death, 180—A case of abscess in the side of a girl, communicating with the lung; surgical emphysema; recovery, 293—A case of phthisis, pleuritis, emphysema, pneumothorax, and bronchitis, ending in death, 378—Case of compound comminuted fracture of the foot, 491—Ligature of the common carotid artery for bleeding from a punctured wound behind the ramus of the jaw; death from supra-glottic œdema, 659

LONDON HOSPITAL.—Popliteal aneurism cured in ten days by flexion, 38—Sudden death; clot in the heart, ib.—Traumatic tetanus treated by ice to the spine; recovery, 67—Operations of lithotomy and tracheotomy, 93—Penetrating wound of the abdomen; recovery, 120—Tracheotomy on a child thirteen days old for laryngeal spasm, ib.—Trismus and tetanus in connexion with a chronic ulcer; recovery, 266—Distended bladder simulated by an hydatid cyst between the rectum and bladder; retention of urine; tapping per rectum, 351—Three fatal cases of acute rheumatism: from clot in heart and pulmonary apoplexy; from rheumatic meningitis; and from rupture of intra-pericardial aneurism, 435—Diphtheritic exudation on the fauces, subsequent to and coexistent with a similar condition of wound on the fore-arm; recovery, 464—Hemiplegia on the right side, with loss of speech; history of rheumatic fever, 605—Hemiplegia of the right side; loss of speech soon passing off; valvular disease, ib.—Chorea, with paralysis, affecting the right side; difficulty in talking, ib.

MIDDLESEX HOSPITAL.—Acute metritis, with utero-cellulitis, slightly simulating pregnancy of fifth month, consequent upon acute suppression of the menses; diagnosis; treatment, 239—Trismus accompanying an ulcer over the front of the deltoid of the right arm; recovery, 660

NATIONAL HOSPITAL FOR EPILEPSY AND PARALYSIS.—Clinical remarks on cases of defects of expression (by words, writing, signs, &c.) in diseases of the nervous system, 604

ROYAL FREE HOSPITAL.—Excision of the calcaneum and cuboid bones for caries; recovery, with a thoroughly sound and serviceable foot, 91

ROYAL GENERAL DISPENSARY.—Chancre and syphilitic lichen attended with intense pruritus, 743

ROYAL LONDON OPHTHALMIC HOSPITAL.—Four cases of the removal of eyes which had been previously lost by accident or disease, and which by their presence were acting injuriously on the patient; with remarks, 209

ST. BARTHOLOMEW'S HOSPITAL.—Epithelial cancer of the upper lip in a female; extirpation; plastic operation, and recovery without deformity, 181—Operation for the relief of constant and severe pain in a case of acute mammary scirrhus, 523—Movable exostosis of the lower end of the femur in a boy; successful abiation, 548

ST. GEORGE'S HOSPITAL.—Large aneurism springing from the arch of the aorta and forming a prominent tumour of the chest, 38—Phthisis, pneumothorax, bronchitis, and death, 120—Hypertrophy of the lower end of the nose, of the size and shape of an ordinary pear; excision, 152—Phthisis, pneumothorax, empyema, 180—Extensive cranial necrosis, followed by erysipelas of the head, face, and chest; extensive empyema, with pneumothorax, 294—Disease of the heart, and consequent embolism of the arteries of the spleen, kidneys, and lower extremity, 379—Empyema and pneumothorax, with remains of supposed old abscesses in the lungs, 437—Tumour of the right side of the brain, of a malignant nature, with hemiplegia of the left side; interesting autopsy, 464—Malignant disease of the submaxillary and both inguinal glands, the pleura, liver, stomach, and other parts, 490—Deligation of the common carotid artery for hæmorrhage resulting from ulceration, in a case of enlarged cervical glands, 523—Lipomatous tumour, with ramifying lobules in the left posterior triangle of the neck of a child; successfully extirpated, 548—A large abscess formed by a suppurating hydatid cyst in the liver, and bursting into the peritoneum, 572—A case of pyæmia suspected to be spontaneous in its origin, 690—Carcinoma of uterus and rectum, with a sac between the two, rupturing into the peritoneum, and permitting of a communication with the bowel, 715—Tuberculous masses in each hemisphere of the brain; convulsions; death, 741

ST. MARY'S HOSPITAL.—Case of extreme squint cured, without operation, by the use of prisms, clinical remarks, 119—Erosive ulceration of the derma of the nose, successfully treated with the local use of iodine, 152—Perforation of the soft palate from syphilis, producing rhinophonia and dysphagia; remedy by operation, 352—Cases of strabismus successfully treated; with clinical remarks, 522—Excision of an encysted bursal tumour in a case of housemaid's knee; good recovery, 548—Cauliflower excrescence of the os uteri; removal by the wire-rope écraseur; clinical remarks, 661

ST. THOMAS'S HOSPITAL.—Strangulated hernia, the sac containing the cæcum, 92—Dislocation of the humerus of three weeks' standing, 153—Necrosis of the lower jaw, 208—Caries of atlas and axis, ib.—Temporary recovery from a severe scalp wound; subsequent fatal symptoms found to depend upon suppuration between the dura mater and skull; clinical remarks, 294—Fracture of the spine, 295—Case of necrosis of the radius; clinical remarks, 491—Two cases of strangulated hernia, one requiring operation, the other successfully reduced; clinical remarks, 524—Case of fracture of the patella; with clinical remarks, 691—A vascular tumour or venous nævus, containing phleboliths; successful removal, 742

UNIVERSITY COLLEGE HOSPITAL.—Cartilaginous growth on the septum of the nose; removal, 153—Large gelatino-sarcomatous tumour of the thigh removed by operation; fatal pyæmia, 490—Lodgment of a needle in the knee-joint of a girl; successful extraction, 690

WEST LONDON HOSPITAL.—Inguinal hernia treated by Wood's operation; cure, 39—Wound of the thyroid cartilage, followed by supra-glottic œdema of the larynx; laryngotomy; fatal result, 352

WESTMINSTER HOSPITAL.—Chronic disease of the shoulder-joint; excision of the head of the humerus; recovery, 37—Five cases of operation in which the vessels were secured by the wire ligature, and in which both ends were cut short and left in the wound, 91 — Loss of the right turbinated bones, vomer, and both nasal bones, exposing the cavity of the nose, 152 — Chronic hydrarthrosis of the knee-joint successfully treated by the injection of tincture of iodine after tapping, 265 — Large recurrent tumour of the superior maxilla; removal; recovery, 352

Monster, another, 461
